

Share Trading Policy

Yancoal Australia Limited

ACN 111 859 119

Approved by the Board on 7 October 2018

1 Objective

The purpose of this Policy is to establish a best practice procedure for ensuring the Company's directors and employees do not buy or sell securities during times when the Company is likely to hold unpublished information that could materially affect the price or value of securities.

The Company aims to achieve the highest possible standards of corporate conduct and governance. The Board of directors considers that compliance with this Policy is essential to ensure that the highest standards of conduct are being met by all directors and employees.

Any non compliance with this Policy will be regarded as serious misconduct and may entitle the Company to take corrective disciplinary action.

It is important that public confidence in the Company is maintained. It would be damaging to the Company's reputation if the market or the general public perceived that personnel might be taking advantage of their position in the Company to make financial gains (by dealing in securities on the basis of inside information).

As a guiding principle, Relevant Persons should ask themselves:

"If the market was aware of all the current circumstances, could the proposed dealing be perceived by the market as the Relevant Person taking advantage of his or her position in an inappropriate way? How would it look if the transaction were reported on the front page of the newspaper?" (the **Front Page Test**).

If a Relevant Person is unsure, he or she should consult the Company Secretary and Group Counsel.

Clearance for a trade which is sought in accordance with this Policy will not be provided where the trade would not satisfy the Front Page Test.

This Policy should be read in conjunction with the Company's Insider Trading Policy.
