

**FOCUSED ON  
AUSTRALIAN FUTURES**

**ECONOMIC CONTRIBUTION REPORT**

**YANCOAL  
AUSTRALIA LTD**

Yancoal's national sponsorship of The Clontarf Foundation is in its fifth consecutive year.

## FOCUSED ON AUSTRALIAN FUTURES

*When done responsibly and ethically, mining can have beneficial impacts for generations.*

Yancoal is a leading low-cost Australian producer of premium thermal, semi-soft coking and PCI coals. We export our coal to a broad range of customers and countries, mainly in the Asian region. Since 2004, Yancoal has generated over \$10 billion in Foreign Direct Investment (FDI) for Australia and now owns, operates or participates in nine producing coal mines across NSW, Queensland and Western Australia. We believe our exported coal will continue to play a key role in delivering economic growth and improved quality of life, especially in Asia.

But mining is about much more than just the coal we export or how it is used. The Australian mining sector creates rewarding careers. Mining allows Australian regional towns to thrive. Mining underpins government budgets. Mining provides people, communities and societies with a future.

Yancoal's story goes beyond coal. It is about the positive impact we have on people's lives and livelihoods: trainees getting a foot in the door; the people who serve us our morning coffee on the way to work; the local businesses we support; the environment we regenerate; the communities we nurture; the workplace culture we create; the mateship we foster; and the Australian families that rely on us for a future.

# AUSTRALIA: DIRECT AND INDIRECT ECONOMIC IMPACTS

Yancoal’s annual operational and financial performance – safely, efficiently, responsibly and profitably mining high-quality product for export – is just one element of what our Company achieves. **The broader benefits that Yancoal generates to people and societies should not be overlooked.**

When all direct and indirect effects are considered, Yancoal’s total annual impact to the Australian economy in 2021 was over \$8.3 billion and included supporting approximately 42,000 full time equivalent jobs that earnt \$3.3 billion, predominantly in regional areas.

Yancoal is committed to making a genuine positive difference where it operates. Through its Community Support Program (CSP) Yancoal invests in its communities, and partners with community groups, especially those that may otherwise struggle to achieve funding to achieve meaningful outcomes.

Data in this document has been drawn from Yancoal’s 2021 Economic Impact Assessment Report. Further data outlining Yancoal’s extensive economic contribution at state and regional levels is available in the report which is located on the website: [www.yancoal.com.au](http://www.yancoal.com.au)

*“Yancoal is committed to the Australian coal industry, and mining coal will remain our core focus in the foreseeable future.*

*To sustain our business well into the future, we are also actively assessing renewable energy projects in Australia, whether to supply electricity to our existing operations or as a beneficial land-use after mining has ended, and opportunities to expand into other minerals and commodities.*

*Transitioning Yancoal into a diversified energy and mining company over the coming years will not detract us from our continued focus on our existing assets and we will continue to be a significant contributor to the prosperity of Australia and the communities in which we operate.”*

# DIRECT ECONOMIC IMPACTS BY STATE

*Yancoal is proud to invest in local and regional Australia, helping to build stronger and more sustainable communities across the country.*

In 2021, Yancoal’s Community Support Program (CSP) and our associated Joint Venture operations (HVO and Middlemount) invested approximately \$1.45 million into 162 local initiatives across Australia.

Each year Yancoal allocates funds at both a site and corporate level to financially support community groups and programs operating across the areas of:

- Health, such as through support of critical research and community medical outreach;
- Social and community, such as through sponsoring key community events and clubs;

- Environment, such as through supporting the rescue and rehabilitation of local wildlife; and
- Education and training, such as through the support of indigenous traineeships.

The activities and initiatives funded by the CSP are outlined in our annual ESG Report, which is available on our website ([www.yancoal.com.au](http://www.yancoal.com.au)).
