Media Release:

Turill Community Centre upgrades their kitchen

The Turill Community Centre kitchen is preparing and serving their food up in style, thanks to funding from Yancoal Australia's Moolarben operation to upgrade their kitchen with a new stainless-steel bench.

Popular amongst the local community for hosting functions, community meetings and fundraisers, a fitted out and functioning kitchen was much needed.

Turill Community Centre Treasurer, Susan Symons welcomed the upgrade to their facilities.

"We host many functions and events annually and we want to provide the best facility we can to the members of our community.

"The funding enabled the purchase of a stainless-steel bench, which not only looks good, it is easy to clean and ensures a high standard of hygiene where we primarily prepare and serve the food.

"In the past, Moolarben funding helped us upgrade our front fence and entrance area, we are thankful for their continued support," said Susan.

Moolarben Coal General Manager Steve Archinal said, "We are happy to help improve the Turill Community Centre for the benefit of all community members and volunteers who use the venue."

This funding support is part of the Yancoal Moolarben Coal Community Support Program, which aims to make a difference in the community and in the lives of the people who work and live in the areas where it operates.
