# Media Release:

## Stroud Show – bigger and better than ever

Recently, around 3,000 people from the local and surrounding communities attended the annual Stroud Show, of which Stratford Coal was the proud major sponsor.

The show is set over three days and the \$10,000 donation from Stratford Coal helps ensure the gates can open, and activities and displays can be set up for a great family event.

James Harris, President of the Stroud Show, was thrilled to have the show back for another great year.

“The Stroud Show is always a success, and this year was no different. We may have been a little wet and muddy due to the weather, but the show went on and the people still enjoyed some great country entertainment.

“We want to thank our major sponsor, Yancoal’s Stratford Coal, for their continued support and look forward to working with them in the future.

“We have already pencilled into the diary that the show will go ahead next year on 21 to 23 April 2023, so please save the date,” said James.

Stratford Coal Operations Manager, John Cullen, acknowledged the enjoyment that the event brings to the local community.

“Shows like this unite the community, bringing people together in a happy, safe and fun environment. We are proud to be major sponsor of the Stroud Show and happy to help fund a great local event,” said John.

The Stratford Coal Community Support Program runs annually and invests in community groups working in the areas of education, health, social and community, environment, and cultural heritage. It aims to make a positive difference in the local community, and to the lives of the people who work and live in the local area.

Since 2004, Yancoal has grown to be one of Australia’s largest coal exporters: owning or operating nine producing mines across the country, employing over 4,300 Australians, contributing to the national economy, and investing in regional communities.
