### Notes regarding the Annual Rental Fee Area

The introduction of an administrative levy and rental fee on 12 June 2012 brought NSW in line with other Australian jurisdictions' annual charges for mineral and gas titles.

NSW Resources is required by subclause 81(1) of the Mining Regulation 2016 (the Regulation) to determine annual rental fee areas for all authorisations granted on or after 1 July 2012.

Under sections 292E and 292F of the *Mining Act 1992*, liability for an annual rental fee arises on the grant of an authorisation and on each grant anniversary date that occurs during the term.

The annual rental fee, which is calculated in accordance with the Regulation, must be paid before the authorisation is granted.

Clause 80 of the Regulation relates to the calculation of annual rental fees. Annual rental fees for:

- Exploration licences for non-coal minerals are charged based on the authority area, in whole units
- Exploration licences for coal are charged based on the authority area (usually hectares or square kilometres)
- Assessment and Mining leases are charged based on the authority area (usually hectares square metres or square kilometres).

The Secretary's determination of the annual rental fee area is set out in clause 81, and specifies that:

- 'Exclusions specified, or proposed to be specified, in an authorisation are to be counted towards the annual rental fee area' (subclause 81(4)) and
- When determining the annual rental fee area:
  - 'If the annual fee area includes a **part of a unit**, that part is to be disregarded' (subclause 80(3)); and
  - 'If the annual rental fee area includes part of a hectare, square kilometre or square metre, that part is to be included in the calculation' (subclause 80(4)).

For the purposes of calculating the annual rental fee area, **part of a unit** only occurs when the unit intersects with a State or coastal border.

The area of this application does not include 'part units' which is reflected by the annual rental fee area being the same as the area of the exploration licence that it is proposed to grant in satisfaction of the Exploration Licence Application.
