Media Release:

Funding boost for Collie community groups

Premier Coal is investing over \$95,000 into community organisations in Collie through its 2026 Community Support Program via donations, sponsorships and partner agreements.

This funding will be shared across fourteen local community organisations including Collie Community Radio, Leschenault Catchment Council, HorsePower Collie, Heart Hub Southwest, Collie Retired Mineworkers, Coalfields Museum, Collie Agricultural Society, Collie Cycle Club, Rotary Club of Collie, Collie Golf Club and many more.

The 2026 Community Support Program is funded by Yancoal Australia and provides financial assistance to local groups working in the areas of health, community, environment, arts, culture, education, and training.

Premier Coal Operations Manager, Braedon Gaske was delighted to help fund more amazing projects in the community again this year.

“Year on year our Community Support Program gives us the opportunity to assist locally focused programs and initiatives capable of making a real contribution to the continued growth and sustainability of the Collie area.

“The funding will have a direct impact on the community by helping purchase new equipment and complete technology upgrades, conduct an environmental river care project, run youth engagement and learning programs, renovate buildings and fences and help ensure local festivals and events happen.

“We are committed to being a valued and welcomed member of the Collie and Southwest community by supporting a wide range of community activities and maintaining a high-level of community engagement.

“We wish the successful recipients all the best and look forward to hearing about the positive change they deliver for the people of Collie,” said Braedon.

Yancoal is proud to be investing into local and regional Australia, helping build stronger communities across the country.

For over 20 years since 2004, Yancoal has grown to be one of Australia’s largest coal exporters: owning or operating eight producing mines across the country, employing almost 5,500 Australians, contributing to the national economy, and investing in regional communities.
